

# 1. Top 10 Entities

Total number of entities	3647 (3578 nodes)
Total number of links	6833 (6748 edges)

## Ranked by Incoming Links

Rank	Type	Value	Incoming links
1	Domain	us.org	120
2	IPv4 Address	79.124.78.120	112
3	IPv4 Address	78.142.29.210	112
4	Node	Not Blacklisted	63
5	Node	Not Disposable	63
6	Node	Not Free Provider	59
7	Domain	nsa.gov	55
8	Email Address	hostmaster@ripe.net	44
9	Email Address	abuse@ripe.net	44
10	Node	Low Risk	38

## Ranked by Outgoing Links

Rank	Type	Value	Outgoing links
1	Domain	nsa.gov	107
2	Domain	hyperhost.name	90
3	Domain	mail.mil	83
4	Domain	us.org	77
5	Domain	mail.at	76
6	Netblock	103.1.8.0-103.1.8.255	67
7	Domain	tycho.ncsc.mil	62
8	Netblock	37.72.171.0-37.72.171.255	57
9	Domain	mail.ac	56
10	Domain	mail.ag	56

## Ranked by Total Links

Rank	Type	Value	Total links
1	Domain	us.org	197
2	Domain	nsa.gov	162
3	IPv4 Address	79.124.78.120	157
4	IPv4 Address	78.142.29.210	156
5	Domain	mail.mil	95
6	Domain	hyperhost.name	92
7	Domain	mail.at	89
8	Domain	mail.al	74
9	Netblock	103.1.8.0-103.1.8.255	73
10	Domain	mail.ac	69

## 2. Entities by Type

### ASs (29)

Access to Public Interest Registry WHOIS information is provided to assist persons in determining the contents of a domain name registration record in the Public Interest Registry registry database. The data in this record is provided by Public Interest Registry for informational purposes only, and Public Interest Registry does not guarantee its accuracy. This service is intended only for query-based access. You agree that you will use this data only for lawful purposes and that, under no circumstances will you use this data to (a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the data recipient's own existing customers; or (b) enable high volume, automated, electronic processes that send queries or data to the systems of Registry Operator, a Registrar, or Afilias except as reasonably necessary to register domain names or modify existing registrations. All rights reserved. Public Interest Registry reserves the right to modify these terms at any time. By submitting this query, you agree to abide by this policy.

The Registrar of Record identified in this output may have an RDDS service that can be queried for additional information on how to contact the Registrant, Admin, or Tech contact of the queried domain name.

The queried object does not exist:  
>>> Last update of WHOIS database: 2018-12-15T11:34:02Z <<<

The data in the WHOIS database of Key-Systems GmbH is provided by Key-Systems GmbH for information purposes, and to assist persons in obtaining information about or related to domain name registration records. Key-Systems GmbH does not guarantee its accuracy. By submitting a WHOIS query, you agree that you will use this data only for lawful purposes and that, under no circumstances, you will use this data to

- 1) allow, enable, or otherwise support the transmission of mass unsolicited, commercial advertising or solicitations via E-mail (spam); or
- 2) enable high volume, automated, electronic processes that apply to Key-Systems GmbH or its systems.

Key-Systems GmbH reserves the right to modify these terms. By submitting this query, you agree to abide by this policy.

("ICB") is provided to assist persons in determining the contents of a domain name registration record in the ICB registry database. The data in this record is provided by ICB for informational purposes only, and ICB does not guarantee its accuracy. This service is intended only for query-based access. You agree that you will use this data only for lawful purposes and that, under no circumstances will you use this data to (i) allow, enable, or otherwise support the transmission by e-mail, telephone, facsimile or other electronic means of mass, unsolicited, commercial advertising or solicitations to entities other than the data recipient's own existing customers; or (ii) enable high volume, automated, electronic processes that send queries or data to the systems of Registry Operator, a Registrar, or ICB or its services providers except as reasonably necessary to register domain names or modify existing registrations. UK privacy laws limit the scope of information permitted for certain public access. Therefore, concerns regarding abusive use of domain registrations in the ICB registry should be directed to either (a) the Registrar of Record as indicated in the WHOIS output, or (b) the ICB anti-abuse department at <a href="mailto:abuse@icbregistry.info">abuse@icbregistry.info</a>.</p> <p>All rights reserved. ICB reserves the right to modify these terms at any time. By submitting this query, you agree to abide by these policies</p> <p>The Registrar of Record identified in this output may have an RDDS service that can be queried for additional information on how to contact the Registrant, Admin, or Tech contact of the queried domain name. WHOIS lookup made on Sat, 15 Dec 2018 at 11:40:43 UTC

This WHOIS information is provided for free by CIDR, operator of the backend registry for domain names ending in GG, JE, and AS.

Copyright (c) and database right AS Domain Registry 1997 - 2018.

You may not access this WHOIS server or use any data from it except as permitted by our Terms and Conditions which are published at <http://www.channelisles.net/legal/whoisterms>

They include restrictions and prohibitions on

- using or re-using the data for advertising;
- using or re-using the service for commercial purposes without a licence;
- repackaging, recompilation, redistribution or reuse;
- obscuring, removing or hiding any or all of this notice;
- exceeding query rate or volume limits.

The data is provided on an 'as-is' basis and may lag behind the register. Access may be withdrawn or restricted at any time.

Terms of Use: Donuts Inc. provides this Whois service for information purposes, and to assist persons in obtaining information about or related to a domain name registration record. Donuts does not guarantee its accuracy. Users accessing the Donuts Whois service agree to use the data only for lawful purposes, and under no circumstances may this data be used to:

purposes, and under no circumstances may this data be used to:  
a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the registrar's own existing customers and b) enable high volume, automated, electronic processes that send queries or data to the systems of Donuts or any ICANN-accredited registrar, except as reasonably necessary to register domain names or modify existing registrations. When using the Donuts Whois service, please consider the following: The Whois service is not a replacement for standard EPP commands to the SRS service. Whois is not considered authoritative for registered domain objects. The Whois service may be scheduled for downtime during production or OT&E maintenance periods. Queries to the Whois services are throttled. If too many queries are received from a single IP address within a specified time, the service will begin to reject further queries for a period of time to prevent disruption of Whois service access. Abuse of the Whois system through data mining is mitigated by detecting and limiting bulk query access from single sources. Where applicable, the presence of a [Non-Public Data] tag indicates that such data is not made publicly available due to applicable data privacy laws or requirements. Should you wish to contact the registrant, please refer to the Whois records available through the registrar URL listed above. Access to non-public data may be provided, upon request, where it can be reasonably confirmed that the requester holds a specific legitimate interest and a proper legal basis for accessing the withheld data. Access to this data can be requested by submitting a request via the form found at <https://donuts.domains/about/policies/whois-layered-access/> Donuts Inc. reserves the right to modify these terms at any time. By submitting this query, you agree to abide by this policy.

The above WHOIS results have been redacted to remove potential personal data. The full WHOIS output may be available to individuals and organisations with a legitimate interest in accessing this data not outweighed by the fundamental privacy rights of the data subject. To find out more, or to make a request for access, please visit: [RDDSrequest.nic.buzz](https://rddsrequest.nic.buzz).

dotStrategy, the Registry Operator for .BUZZ, has collected this information for the WHOIS database through an ICANN-Accredited Registrar. This information is provided to you for informational purposes only and is designed to assist persons in determining contents of a domain name registration record in the dotStrategy registry database. dotStrategy makes this information available to you "as is" and does not guarantee its accuracy. By submitting a WHOIS query, you agree that you will use this data only for lawful purposes and that, under no circumstances will you use this data: (1) to allow, enable, or otherwise support the transmission of mass unsolicited, commercial advertising or solicitations via direct mail, electronic mail, or by telephone; (2) in contravention of any applicable data and privacy protection acts; or (3) to enable high volume, automated, electronic processes that apply to the registry (or its systems). Compilation, repackaging, dissemination, or other use of the WHOIS database in its entirety, or of a substantial portion thereof, is not allowed without dotStrategy's prior written permission. dotStrategy reserves the right to modify or change these conditions at any time without prior or subsequent notification of any kind. By executing this query, in any manner whatsoever, you agree to abide by these terms.

By executing a query, in any manner whatsoever, you agree to abide by these Terms and Conditions.

NOTE: FAILURE TO LOCATE A RECORD IN THE WHOIS DATABASE IS NOT INDICATIVE OF THE AVAILABILITY OF A DOMAIN NAME.

Contact information: Contact information: The contact details for this contact ID may be available by looking up a domain object in the WHOIS system.

Notes:

IMPORTANT: Port43 will provide the ICANN-required minimum data set per ICANN Temporary Specification, adopted 17 May 2018. Visit <https://whois.godaddy.com> to look up contact data for domains not covered by GDPR policy.

The data contained in GoDaddy.com, LLC's Whois database, while believed by the company to be reliable, is provided "as is" with no guarantee or warranties regarding its accuracy. This information is provided for the sole purpose of assisting you in obtaining information about domain name registration records. Any use of this data for any other purpose is expressly forbidden without the prior written permission of GoDaddy.com, LLC. By submitting an inquiry, you agree to these terms of usage and limitations of warranty. In particular, you agree not to use this data to allow, enable, or otherwise make possible, dissemination or collection of this data, in part or in its entirety, for any purpose, such as the transmission of unsolicited advertising and solicitations of any kind, including spam. You further agree not to use this data to enable high volume, automated or robotic electronic processes designed to collect or compile this data for any purpose, including mining this data for your own personal or commercial purposes.

Please note: the registrant of the domain name is specified in the "registrant" section. In most cases, GoDaddy.com, LLC is not the registrant of domain names listed in this database.

Terms of Use: Donuts Inc. provides this Whois service for information purposes, and to assist persons in obtaining information about or related to a domain name registration record. Donuts does not guarantee its accuracy. Users accessing the Donuts Whois service agree to use the data only for lawful purposes, and under no circumstances may this data be used to:

purposes, and under no circumstances may this data be used to: a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the registrar's own existing customers and b) enable high volume, automated, electronic processes that send queries or data to the systems of Donuts or any ICANN-accredited registrar, except as reasonably necessary to register domain names or modify existing registrations. When using the Donuts Whois service, please consider the following: The Whois service is not a replacement for standard EPP commands to the SRS service. Whois is not considered authoritative for registered domain objects. The Whois service may be scheduled for downtime during production or OT&E maintenance periods. Queries to the Whois services are throttled. If too many queries are received from a single IP address within a specified time, the service will begin to reject further queries for a period of time to prevent disruption of Whois service access. Abuse of the Whois system through data mining is mitigated by detecting and limiting bulk query access from single sources. Where applicable, the presence of a [Non-Public Data] tag indicates that such data is not made publicly available due to applicable data privacy laws or requirements. Should you wish to contact the registrant, please refer to the Whois records available through the registrar URL listed above. Access to non-public data may be provided, upon request, where it can be reasonably confirmed that the requester holds a specific legitimate interest and a proper legal basis for accessing the withheld data. Access to this data can be requested by submitting a request via the form found at <https://donuts.domains/about/policies/whois-layered-access/> Donuts Inc. reserves the right to modify these terms at any time. By submitting this query, you agree to abide by this policy.

WHOIS Info

% .be Whois Server 6.1  
%  
% The WHOIS service offered by DNS Belgium and the access to  
the records in the DNS Belgium  
% WHOIS database are provided for information purposes only. It  
allows  
% persons to check whether a specific domain name is still  
available or not  
% and to obtain information related to the registration records of  
% existing domain names.  
%  
% DNS Belgium cannot, under any circumstances, be held liable  
where the stored  
% information would prove to be incomplete or inaccurate in any  
sense.  
%  
% By submitting a query you agree not to use the information  
made available  
% to:  
% - allow, enable or otherwise support the transmission of  
unsolicited,  
% commercial advertising or other solicitations whether via  
email or otherwise;  
% - target advertising in any possible way;  
% - to cause nuisance in any possible way to the domain name  
holders by sending  
% messages to them (whether by automated, electronic  
processes capable of  
% enabling high volumes or other possible means).  
%  
% Without prejudice to the above, it is explicitly forbidden to  
extract, copy  
% and/or use or re-utilise in any form and by any means  
(electronically or  
% not) the whole or a quantitatively or qualitatively substantial part  
% of the contents of the WHOIS database without prior and  
explicit permission  
% by DNS Belgium, nor in any attempt thereof, to apply  
automated, electronic  
% processes to DNS Belgium (or its systems).  
%  
% You agree that any reproduction and/or transmission of data for  
commercial  
% purposes will always be considered as the extraction of a  
substantial  
% part of the content of the WHOIS database.  
%  
% By submitting the query you agree to abide by this policy and  
accept that  
% DNS Belgium can take measures to limit the use of its whois  
services in order to  
% protect the privacy of its registrants or the integrity of the  
database.

Terms of Use: Donuts Inc. provides this Whois service for information purposes, and to assist persons in obtaining information about or related to a domain name registration record. Donuts does not guarantee its accuracy. Users accessing the

Donuts does not guarantee its accuracy. Users accessing the Donuts Whois service agree to use the data only for lawful purposes, and under no circumstances may this data be used to: a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the registrar's own existing customers and b) enable high volume, automated, electronic processes that send queries or data to the systems of Donuts or any ICANN-accredited registrar, except as reasonably necessary to register domain names or modify existing registrations. When using the Donuts Whois service, please consider the following: The Whois service is not a replacement for standard EPP commands to the SRS service. Whois is not considered authoritative for registered domain objects. The Whois service may be scheduled for downtime during production or OT&E maintenance periods. Queries to the Whois services are throttled. If too many queries are received from a single IP address within a specified time, the service will begin to reject further queries for a period of time to prevent disruption of Whois service access. Abuse of the Whois system through data mining is mitigated by detecting and limiting bulk query access from single sources. Where applicable, the presence of a [Non-Public Data] tag indicates that such data is not made publicly available due to applicable data privacy laws or requirements. Should you wish to contact the registrant, please refer to the Whois records available through the registrar URL listed above. Access to non-public data may be provided, upon request, where it can be reasonably confirmed that the requester holds a specific legitimate interest and a proper legal basis for accessing the withheld data. Access to this data can be requested by submitting a request via the form found at <https://donuts.domains/about/policies/whois-layered-access/> Donuts Inc. reserves the right to modify these terms at any time. By submitting this query, you agree to abide by this policy.

Terms of Use: Donuts Inc. provides this Whois service for information purposes, and to assist persons in obtaining information about or related to a domain name registration record. Donuts does not guarantee its accuracy. Users accessing the Donuts Whois service agree to use the data only for lawful purposes, and under no circumstances may this data be used to: a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the registrar's own existing customers and b) enable high volume, automated, electronic processes that send queries or data to the systems of Donuts or any ICANN-accredited registrar, except as reasonably necessary to register domain names or modify existing registrations. When using the Donuts Whois service, please consider the following: The Whois service is not a replacement for standard EPP commands to the SRS service. Whois is not considered authoritative for registered domain objects. The Whois service may be scheduled for downtime during production or OT&E maintenance periods. Queries to the Whois services are throttled. If too many queries are received from a single IP address within a specified time, the service will begin to reject further queries for a period of time to prevent disruption of Whois service access. Abuse of the Whois system through data mining is mitigated by detecting and limiting bulk query access from single sources. Where applicable, the presence of a [Non-Public Data] tag indicates that such data is not made publicly available due to applicable data privacy laws or requirements. Should you wish to contact the registrant, please refer to the Whois records available through the registrar URL listed above. Access to non-public data may be provided, upon request, where it can be reasonably confirmed that the requester holds a specific legitimate interest and a proper legal basis for accessing the withheld data. Access to this data can be requested by submitting a request via the form found at <https://donuts.domains/about/policies/whois-layered-access/> Donuts Inc. reserves the right to modify these terms at any time. By submitting this query, you agree to abide by this policy.

Access to WHOIS information is provided to assist persons in determining the contents of a domain name registration record in the registry database. The data in this record is provided by The Registry Operator for informational purposes only, and accuracy is not guaranteed. This service is intended only for query-based access. You agree that you will use this data only for lawful purposes and that, under no circumstances will you use this data to (a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the data recipient's own existing customers; or (b) enable high volume, automated, electronic processes that send queries or data to the systems of Registry Operator, a Registrar, or Afilias except as reasonably necessary to register domain names or modify existing registrations. All rights reserved. Registry Operator reserves the right to modify these terms at any time. By submitting this query, you agree to abide by this policy.

The Registrar of Record identified in this output may have an RDDS service that can be queried for additional information on how to contact the Registrant, Admin, or Tech contact of the queried domain name.

WHOIS Info	NOT FOUND >>> Last update of WHOIS database: 2018-12-15T11:35:06Z <<<

Access to AFILIAS WHOIS information is provided to assist persons in determining the contents of a domain name registration record in the Afiliat registry database. The data in this record is provided by Afiliat Limited for informational purposes only, and Afiliat does not guarantee its accuracy. This service is intended only for query-based access. You agree that you will use this data only for lawful purposes and that, under no circumstances will you use this data to(a) allow, enable, or otherwise support the transmission by e-mail, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the data recipient's own existing customers; or (b) enable high volume, automated, electronic processes that send queries or data to the systems of Registry Operator, a Registrar, or Afiliat except as reasonably necessary to register domain names or modify existing registrations. All rights reserved. Afiliat reserves the right to modify these terms at any time. By submitting this query, you agree to abide by this policy.

The Registrar of Record identified in this output may have an RDDS service that can be queried for additional information on how to contact the Registrant, Admin, or Tech contact of the queried domain name.

NOTICE: The expiration date displayed in this record is the date the registrar's sponsorship of the domain name registration in the registry is currently set to expire. This date does not necessarily reflect the expiration date of the domain name registrant's agreement with the sponsoring registrar. Users may consult the sponsoring registrar's Whois database to view the registrar's reported date of expiration for this registration.

TERMS OF USE: You are not authorized to access or query our Whois database through the use of electronic processes that are high-volume and automated except as reasonably necessary to register domain names or modify existing registrations; the Data in VeriSign Global Registry Services' ("VeriSign") Whois database is provided by VeriSign for information purposes only, and to assist persons in obtaining information about or related to a domain name registration record. VeriSign does not guarantee its accuracy. By submitting a Whois query, you agree to abide by the following terms of use: You agree that you may use this Data only for lawful purposes and that under no circumstances will you use this Data to: (1) allow, enable, or otherwise support the transmission of mass unsolicited, commercial advertising or solicitations via e-mail, telephone, or facsimile; or (2) enable high volume, automated, electronic processes that apply to VeriSign (or its computer systems). The compilation, repackaging, dissemination or other use of this Data is expressly prohibited without the prior written consent of VeriSign. You agree not to use electronic processes that are automated and high-volume to access or query the Whois database except as reasonably necessary to register domain names or modify existing registrations. VeriSign reserves the right to restrict your access to the Whois database in its sole discretion to ensure operational stability. VeriSign may restrict or terminate your access to the Whois database for failure to abide by these terms of use. VeriSign reserves the right to modify these terms at any time.

reserves the right to modify these terms at any time.

The Registry database contains ONLY .COM, .NET, .EDU domains and Registrars.

Description	This document is the result of a July 2000 meeting of researchers, U.S. government research sponsors, and network defenders working for the U.S. Pacific Command. It provides an analysis of cyber incidents, a discussion of insider misuse mitigation, and defensively engaging the attacker. It also contains conclusions and recommendations.

<p>
This is the default welcome page used to test the correct
operation of the Apache2 server after installation on Ubuntu
systems.

It is based on the equivalent page on Debian, from which
the Ubuntu Apache
packaging is derived.

If you can read this page, it means that the Apache HTTP
server installed at
this site is working properly. You should replace this
file (located at
<tt>/var/www/html/index.html</tt>) before continuing to
operate your HTTP server.
</p>

<p>
If you are a normal user of this web site and don't know
what this page is
about, this probably means that the site is currently
unavailable due to
maintenance.

If the problem persists, please contact the site's
administrator.
</p>

</div>
<div class="section_header">
<div id="changes"></div>

```

<div id="changes"></div>

Configuration Overview

</div>

<div class="content\_section\_text">

<p>

Ubuntu's Apache2 default configuration is different from the upstream default configuration, and split into several files optimized for interaction with Ubuntu tools. The configuration system is **fully documented in </usr/share/doc/apache2/README.Debian.gz>**. Refer to this for the full documentation. Documentation for the web server itself can be found by accessing the [manual](/manual) if the `apache2-doc` package was installed on this server.

</p>

<p>

The configuration layout for an Apache2 web server installation on Ubuntu systems is as follows:

</p>

<pre>

```
/etc/apache2/  
|-- apache2.conf  
| `-- ports.conf  
|-- mods-enabled  
| |-- *.load  
| `-- *.conf  
|-- conf-enabled  
| `-- *.conf  
|-- sites-enabled  
| `-- *.conf
```

</pre>

<ul>

<li>

`apache2.conf` is the main configuration file. It puts the pieces together by including all remaining configuration

files when starting up the web server.

</li>

<li>  
<tt>ports.conf</tt> is always included from the main configuration file. It is used to determine the listening ports for incoming connections, and this file can be customized anytime.  
</li>

<li>  
Configuration files in the <tt>mods-enabled</tt>, <tt>conf-enabled</tt> and <tt>sites-enabled</tt> directories contain particular configuration snippets which manage modules, global configuration fragments, or virtual host configurations, respectively.  
</li>

<li>  
They are activated by symlinking available configuration files from their respective \*-available/ counterparts. These should be managed by using our helpers

<tt>  
<a href="http://manpages.debian.org/cgi-bin/man.cgi?query=a2enmod">a2enmod</a>,  
<a href="http://manpages.debian.org/cgi-bin/man.cgi?query=a2dismod">a2dismod</a>,  
</tt>

<tt>  
<a href="http://manpages.debian.org/cgi-bin/man.cgi?query=a2ensite">a2ensite</a>,  
<a href="http://manpages.debian.org/cgi-bin/man.cgi?query=a2dissite">a2dissite</a>,  
</tt>

and

<tt>  
<a href="http://manpages.debian.org/cgi-bin/man.cgi?query=a2enconf">a2enconf</a>,  
<a href="http://manpages.debian.org/cgi-bin/man.cgi?query=a2disconf">a2disconf</a>  
</tt>. See their respective man pages for detailed information.

</li>

</li>

<li>

The binary is called apache2. Due to the use of environment variables, in the default configuration, apache2 needs to be

started/stopped with `<code>/etc/init.d/apache2</code>` or `<code>apache2ctl</code>`.

**Calling `<code>/usr/bin/apache2</code>` directly will not work** with the default configuration.

</li>

</ul>

</div>

<div class="section\_header">

<div id="docroot"></div>

Document Roots

</div>

<div class="content\_section\_text">

<p>

By default, Ubuntu does not allow access through the web browser to

*any* file apart of those located in `<code>/var/www</code>`,

href="http://httpd.apache.org/docs/2.4/mod/mod\_userdir.html">public\_html</a>

directories (when enabled) and `<code>/usr/share</code>` (for web applications). If your site is using a web document root located elsewhere (such as in `<code>/srv</code>`) you may need to whitelist your

document root directory in

`<code>/etc/apache2/apache2.conf</code>`.

</p>

<p>

The default Ubuntu document root is

`<code>/var/www/html</code>`. You

can make your own virtual hosts under `/var/www`. This is different

to previous releases which provides better security out of the box.

</p>

```

Description	<p>In response to a Freedom of Information Act lawsuit by The New York Times, the Justice Department has provided these reports by the National Security Agency's inspector general about the once-secret bulk phone records program. The release includes an unredacted letter showing the full name of an order from the Foreign Intelligence Surveillance Court about the program, which usually is redacted. It lists phone company names and discloses that the program can be used to search for operatives of the government of Iran and associated terrorist groups, not just Al Qaeda and its allies.</p>
